Copyright, 1922, by The Janesville  
Gazette.Washington.—President Harding  
feels that since the United States  
Railroad Labor Board is the crea-  
ture of congress any defects in its  
structure must be corrected by the  
legislative body. This is another  
way of saying that if the rail-  
way shopmen feel the author-  
ity of the board and continue  
their strike, the responsibility for  
making the decisions of the la-  
bor board re-  
spected lies with  
congress.And the house of representatives  
has just adjourned until August 13.  
The country is faced with industrial  
warfare and the ill-effects of a coal  
strike already prolonged beyond  
expectation. The government's ef-  
fort to settle the coal controversy  
is likely to be successful though  
the exact formula is as yet by no  
means certain and the government

Chicago.—Louis James, youthful  
stunt flyer, was killed Sunday  
attempting to change from plane to  
plane 1,000 feet up. His body was  
cut to pieces by the propeller of the  
airplane. The propeller was destroyed  
and one wing of the plane was  
damaged.Two planes were performing the  
feats. The first went into a nose  
spin after the accident to James and  
the second also destroyed its  
propeller, also. Both airplanes were  
guided skillfully down, however, and  
neither was damaged further in land-  
ing.James was a pupil and protégé of  
Ruth Law, it was said at the field.  
He had been doing aerial acrobatics

Baltimore.—The fire which swept  
the Locust Point river front of the  
Baltimore and Ohio railroad Sunday  
night caused damage estimated by  
the company at \$4,804,900 and seri-  
ously threatened the Public Health  
Service hospital at Fort McHenry.Two elevators, containing 1,274-  
000 bushels of grain, two ware-  
houses and piers loaded with mer-  
chandise, a power house, drying  
shed, barges and other structures  
were destroyed. Two firemen were  
severely injured by falling debris.Four hundred disabled veterans in  
a nearby hospital were removed  
as fast as ambulances could  
remove them. A hull of a ship  
was up at the piers were removed  
safely but at considerable risk to  
the rescuers.Jap Garrison

foreign interests, the same as the  
garrisons in Tientsin and Peking.

## Vacation Expense Money

About this time of year the vaca-  
tion question comes to the  
surface with a lot of people. You  
know vacations always cost just  
a little more than expected, but  
why worry about it, most likely  
there are a lot of things you  
could do that would bring in the  
cash.The Gazette makes the sug-  
gestion that a trip to the attic,  
basement or store room will dis-  
close a tidy little sum of money  
lying idle among the unused fur-  
niture, or other household arti-  
cles accumulated there. We  
mean by that, that there are cash  
buyers waiting for a chance to  
purchase such things; just as sure  
as you advertise you will get in  
touch with them.Following is a reprint of an  
advertisement published in the  
Gazette that drew 30 calls, one of  
which was a buyer.Dining table and 3 burner

thousands of Southern Wisconsin  
shoppers, July 8 to 15, when mer-  
chants will unite in even big day  
of July clearance sales. Announce-  
ment of plans for the big trade event  
was made by the merchants Monday.Merchandise of every kind will be  
offered to the public at reduced prices.  
The combined sales will be unusual in  
that every line of merchandise will be  
on sale at one time making it possible  
to supply every household need, from  
shoes to complete outfits for the  
family, from clothes-hats to complete  
home furnishings.Included in the sale offerings will  
be: Women's ready-to-wear, men's  
clothing, shoes, boys' clothing, millin-  
ery, musical merchandise, automobile  
tires and accessories, carpets, rugs,  
draperies, furniture, sporting goods,  
lumber, fuel, milk, fruit, electrical  
merchandise, groceries and  
drug sundries.The sales will open the coming Sat-  
urday, continuing all next week.Arrests Youth  
Carrying GunJames M. Cleary, Blanchardville,  
was arrested Sunday night by Officer  
Patrick Stein, who found a .25 calibre  
automatic revolver in his possession.  
Cleary, a farmer boy, became dis-  
satisfied with life on a farm and came  
to Janesville he refused to pay the  
required fare, it was alleged. The po-  
lice were called and the gun found on  
him. He is being held at the police  
station until his father arrives.Blackstone.—Why did you fire that

Auto Accidents, SundayMilwaukee.—Ten persons died  
Sunday and 28 suffered injuries of  
varying degrees of severity as a re-

tegration car and an automobile oc-  
cupied by Theodore H. Lineman  
and Henry and John Klimpkin,  
brothers, one-half mile northwest of  
St. Martins, on the North Cape road  
and the East Troy car line, caused  
the death of three motorists. The  
automobile was hurled 55 feet by  
the impact of the heavy street car  
and demolished. Bodies then were  
taken to the morgue, where difficulty  
was experienced in having the dead  
men identified. It was four hours  
after the accident occurred before  
the identity of Lineman, who owns  
and strikes pedestrians. None of7 Die, 75 Hurt, as

Atlantic City, N. J.—Seven per-  
sons were killed and about 75 others  
injured, half of them seriously,  
early Monday when a Camden-At-  
lantic City express train left the  
rails at Winslow Junction, 37 miles  
from here, and rolled down an em-  
bankment. The actual number of  
dead will not be known until the  
wreckage is thoroughly searched.  
There were reports that nearly 20  
persons were killed, but the com-  
pany announced only seven.Most of the injured were brought to  
a hospital in this city.  
The wreck occurred at the point  
where trains for all southern points  
south of Atlantic City turn to the  
south at the junction.Reports were that a switch had  
been set for a Cape May train but  
for some reason the express from  
Camden came along first.The train left Camden at 11:44  
last night carrying 80 passengers in  
five day coaches and a parlor  
coach. The train was running at high  
speed when it reached the curve and  
its momentum caused it to leave the  
rails, turn over on its left side and  
fall down an embankment.The locomotive and the first day  
coach which was empty turned on  
their sides. The parlor car cata-  
pulted ahead and landed upside  
down on the engine and the next  
four cars, all day coaches, turned  
over on their sides.An electric light pole was snapped  
off by the wreckage and turned the  
scene into darkness.  
By daylight the dead with the ex-  
ception of Engineer Vascotto, had  
been removed and all the injured  
had been sent away.Tuesday, July 4, there will  
be no issue of the Janesville  
Daily Gazette. The office will  
be closed all day.Harding Party

ing, Uniontown, Pa.—It is hoped that  
by evening he would be in his home  
town for the first time since, enter-  
ing the White House, President  
Harding Monday started on another  
leg of his automobile journey to  
Marion.Refreshed by a night's rest at a  
hotel on a mountain top near here,  
the president and Mrs. Harding  
were up for an early getaway. They  
were anxious to arrive in Marion  
by night, although 250 miles re-  
main to be covered. If the tourists  
are unable to complete their trip by  
night, it was said they would stop  
within striking distance, and com-  
plete the tour Tuesday morning, in  
time for homecoming ceremonies in  
which the president, General Persh-  
ing and Charles G. Dawes, former  
budget bureau director, both trav-  
eling with Mr. Harding, will partici-  
pate as speakers.Monday's route carried the presi-  
dent through coal fields in Pennsylv-  
ania, West Virginia, and Ohio,  
where miners have been on strike  
for several months. Since leaving  
Washington, Mr. Harding has made  
no public comment on either the  
coal strike or railroad situations.WIFE OF AMERICAN

ADJOURNS WEEKStill Hope for Agreement on  
Basis of Parley, Says  
Secretary.

[BY ASSOCIATED PRESS.]

Washington.—Deadlocked over a  
basis of negotiating a settlement of  
the bituminous coal strike, the con-  
ference of operators and union  
miners' officials accepted the  
suggestion of government representa-  
tives and adjourned until next  
Monday.Asked as to the indications for a  
successful outcome of the confer-  
ence, which assembled Saturday at  
the behest of President Harding,  
Secretary Davis said, with the  
agreement of Secretary Hoover, the  
other government representative, that  
"as long as we hold them to-  
gether there is hope."Prior to the meeting it was evi-  
dent that the operators hoped to  
close some sort of a conclusion  
Monday without yielding to their  
refusal to meet the union for the  
purpose of making up a national or  
semi-national wide scale. From the  
views of John L. Lewis, president of  
the United Mine Workers of Ameri-  
ca, it was evident the miners con-  
sider it necessary to pressing the  
strike rather than agree to negotia-  
tions for district wide scales, the  
operators believe.The government, so far as could  
be learned, did not present any propo-  
sition as to a basis for the ending of  
the strike, which has been in progress  
since April 1, but there was a belief  
in some quarters that, when the con-  
ference reconvenes next Monday,  
President Harding, who then will  
have returned from his Ohio trip,  
will lay a government proposal before  
the conference.The adjournment, it was said in  
government circles, will allow both  
the operators and the miners an op-  
portunity to talk with their colleagues  
in the fields. John L. Lewis, pres-  
ident of the United Mine Workers.

Chicago.—Proprietors of hotels, res-

in their offices Monday, savoring  
any national holiday, but William  
Yuzell, checked up the evidence on  
which he arrested proprietors and  
managers of more than 20 places Sat-  
urday night and Sunday for violating  
the prohibition law.The "count's" methods—he was at  
one time a working partner of Izy  
Einstein in New York—took Chicago  
by surprise. Trained for years to  
pursue a slouch by his heavy jaws,  
blue serge suit, broad toothed nose  
and the stump of an unlighted cigar  
which all regular detectives chew,  
some of Chicago's best known night  
life leaders are still trying to figure  
out how it happened."Count" came to town a month ago,  
sardonically perfect, with his  
moustache waxed to needle points,  
and soon earned a reputation as a  
sneeper. When he appeared accom-  
panied by a well groomed companion,  
head waiters bowed him to their  
choicest tables and, he says, bonnet  
liners were brought at his request.Saturday he called on the U. S.  
marshal and asked for 20 deputies.  
They followed him in automobiles.  
There was no tip off, for only the  
"count" knew where they were bound.  
At each place, Yuzell was ushered  
to his favorite table by smiling man-  
agers. Then the deputy marshals en-  
tered. The "count" produced a note  
book, scanned his notes and said, "I  
was this man and that man and that  
man." The disillusioned proprietors  
and their helpers were bundled off to  
the federal building.

were outlawed by the U. S. railroad labor  
board today.In a formal resolution the board declared  
that the unions by their action, forfeited all rights  
before the board as railway  
employees and that new organiza-  
tions of shopmen taking the  
striking men's jobs should be  
formed to represent the shop  
employees in disputes before the  
rail labor board.The board requested employees re-  
maining in the service and the car-  
riers to take steps immediately to  
form a new organization for the  
purpose of representing the shop-  
men.The resolution formally declared  
that the striking shop workers are no  
longer employees of any railroad and  
therefore without the jurisdiction  
of the board or subject to the applica-  
tion of the transportation act. Al-  
though directly to the board at this time, the board  
also said that if the maintenance of

### JANESVILLE GETS 1923 BAR MEET

Wisconsin Attorneys to Gather Here in June for 3-Day Session.

Janesville will entertain the 1923 convention of the Wisconsin State Bar association, the affair to be held for three days in the latter part of June bringing to the city several hundred lawyers and judges.

Choice of Janesville as the next convention city was made at the annual meeting in Fond du Lac, Oshkosh also put in a bid for the honor, but this city's claim was accepted unanimously.

John M. Whitehead, Janesville, retiring president of the association and A. E. Matheson, also of this city, were leading speakers at this year's session.

Speakers on the closing day of the convention will be: Attorney Samuel H. Cady, Green Bay; Dr. C. S. Sheldon, Madison; Rev. W. J. Dorward, Milwaukee; Justice Marvin B. Rosenberry, Madison; and Attorney Roger Sherman, Chicago.

Most of the sessions were held at the Fond du Lac Town and Country club.

This is Janesville's first opportunity to entertain this body in many years, and is the culmination of several years' desire on the part of county bar members.

All present at the Fond du Lac convention seemed glad that Janesville secured the 1923 convention, Mr. Whitehead said. The vote for this city was unanimous by those cities which had planned to ask for the convention early in the session.

The convention will bring from 175 to 200 lawyers to this city for a period of four or five days. With the Country club, Colonial club, the hotels and the private homes, it is hoped to easily accommodate any large number. It may be possible by that time to use the auditorium of the new high school for headquarters.

Reception and Kiwanis clubs have promised their support. Lions will probably follow.

### 60 PCT. INCREASE IN ARRESTS HERE

231 in First Half of 1922 Compared to 144 for Six Months of 1921.

Eighty-three arrests or nearly twice the number in May, were made in Janesville during June, according to a report issued Monday by Chief of Police Charles Newman.

From January to July 1, 231 arrests have been made in the city. In only two months this year was the record smaller than last. In January and April, 1921, the arrests exceeded those made this year by a small majority.

During June 13 people were arrested for violating the city parking ordinance; delinquent boys, 12; selling cigarettes to minors, 11; speeding, 7; carrying for other cities, 1; deathly, 12; drunk, 12; reckless driving, 3; attempted robbery, 1; possession of liquor, 2; forgery, 1; driving auto while drunk, 1; suspect, 1; driving car without light bus without city license, 2; beating board bill, 1; non-support, 1; possession, purchase and sale of moonshine, 1; driving by street car while taking on passengers, 1; interfering with an officer, 1.

Chief Patrick Stein led in the number of arrests with a total of 13, followed by William Saxby, who had 10 to his credit. Chief Newman had 6; Chapman, 7; Hardy, 3; Porter, 3; Serstad, 4; Morrissey, 2; Dickinson, 2; Ford, 4; Harmon, 2; Ward, 5, and Lempert, 5.

### FARM HELP IN BIG DEMAND IN COUNTY

Farm help is urgently needed in Rock county and the Farm Bureau is attempting to obtain sufficient laborers for the farmers for haying and preparation for harvesting.

"We can supply jobs for 100 experienced men at fair wages," declared Hugh C. Henningsen, secretary of the Rock County Farm Bureau, Monday. "The farmers must have the help at once."

## THE LAST TRAIL

PLACED BY FRANK FLYNN

GREAT MOMENTS ARE

When the Stranger, warned by the dancing beauty, learns that foes with drawn guns surround him.

When the lights go out, and reappear only to show the Stranger has vanished into the night.

When the Stranger, jailed as the dreaded lone bandit, escapes a lynching party.

When the lone bandit, slain in his secret cave, proves, when his mask is removed, to be not the man they sought.

When the great dam, dynamited by a villain, bursts and the flood overwhelms a village miles away in the valley.

When Winifred and the Stranger find themselves together on the roof of a floating house, and the Stranger announces his identity.

When the receding flood reveals devastation and finds two hearts that beat as one.

AND TWO COMEDIES.

Matinees, 10-25c. Evenings, 10 and 30c.

 Read every energy to finish the high school  
 building so it may be used before the end  
 of 1922. The completion of the building  
 of a community center will be solved.  
 Janesville needs and should have a hotel  
 facilities to care for the public. That will  
 be completed and the auditorium is available  
 for the largest conventions.  
 Finish the parking of Janesville streets as  
 soon as there can be the necessary ad-  
 justments in parking.  
 Give the city a park. There is now available  
 \$10,000 for this purpose and it should not  
 be used for any other. Finish the city and  
 zoning plans.  
 Memorial Building for World War soldiers.

 torical building.

## WIPING THE CARNIVAL OFF THE WISCON- SIN MAP.

Since the Gazette began the fight against the  
 carnival in the state, a dozen other cities have  
 taken up the cudgel and gone after the traveling  
 disfigure. Superior has put a stop to them,  
 barring carnivals from the city and Beloit has  
 placed a license figure of \$150 a day on such  
 shows. This price is prohibitive and will keep  
 them out. There seems to be no reason why these  
 country districts should be invaded by these  
 shows and by so doing evade the city's stern  
 disapproval. The carnival barred from a city  
 can go to the neighboring country outskirts and  
 do as it pleases. The county board has a duty  
 to the country districts in making it impossible  
 for the carnival to go ahead with little if any  
 protection to the people. There is need of legisla-  
 tion barring these shows from the county as  
 well as the cities.

The Kaiser has expressed horror at the Herlin  
 massacre.

## McCUMBER AND FRAZIER

There is not so much difference between Porter  
 J. McCumber and Lynn Frazier. Defeat of Mc-  
 Cumber, hailed as a victory for the anti-admin-  
 istration forces, is not so alarming. In North  
 Dakota the candidate for governor, Nestos, op-  
 posed to the nonpartisan league, was elected and  
 that was the clearly defined issue. McCumber  
 was invited to take a hand last November in the  
 recall of Frazier. He flinched with both sides for  
 a time and it was a question whether he would  
 declare himself opposed to the Independent Voters  
 Association and ally himself with the side of  
 Frazier who was being recalled, or get into the  
 fight against him. He did neither. He "trim-  
 med" and said and did nothing. When nomina-  
 tions were made, the Independent Voters Associa-  
 tion placed McCumber on its ticket but the old  
 guard republicans who refused to go with either  
 the I. V. A. or the nonpartisan league nominated  
 and worked for Ormsby-McCarg. They took no  
 interest in McCumber and he lost.

All of which goes to show that even in politics  
 it pays to be somewhere and not trim sails to  
 passing winds. The election of Frazier will not  
 send either the United States or North Dakota to  
 destruction. We have stood La Follette for several  
 years and he is still raving, but the republic and  
 the constitution remain intact.

A lot of people think there ought to be a Weeks  
 vacation in the cabinet.

## PRIMARY LAWS

Probably Secretary of War Weeks in denounc-  
 ing the primary system does not remember that  
 one of the reasons for its adoption was the boss-  
 ism which was made easy under the old caucus  
 and convention system. In reference to this the  
 Kansas City Star says of the primary and the  
 Weeks idea:

"The direct primary, we agree, produces some  
 undesirable results. But we recall the days when  
 the corporations and the machine used to dictate  
 every nomination in the convention, and the out-  
 come wasn't all that it might have been from the  
 standpoint of the people."

"Also we recall the absolute impossibility in the  
 days of booze, of making a saloon man come  
 within a thousand miles of obeying the law. Now  
 that they all favor vines and beer, we can't see  
 any particular change in their disposition, and  
 we aren't going to favor taking a chance with them."

"In Wisconsin the primary is in need of revision  
 since while claiming to permit candidates to run  
 under a party banner and name, a minority out-  
 side may decide the result as now when we are  
 confronted with the possibility of a socialist vote  
 making a republican nomination."

"Tell Warren about it." It is getting to be a com-  
 mon event in the nation. Confidence in the judg-  
 ment of the president has never been better es-  
 tablished than now. Warren has no theatricals  
 and is on the square. He is not easily swayed  
 from what he believes to be right and that is one  
 reason why he may be able to settle the coal  
 strike. That has to be settled pretty soon or a  
 nation will be short of fuel."

Congress moves right along its blunders to  
 perform.

Massachusetts Tom Heflin of Alabama, sah, calls the  
 Honorable Catfish Glass, from one of the fustiest  
 first families of Vahganah, a liar. Misto Cahtah  
 said he was tired of false statements. Abraham  
 Lincoln cannot be charged with having started  
 this war.

The very interests in the United States which  
 are now so loudly against a protective tariff are  
 the ones making from 100 to 1000 per cent on  
 merchandise purchased abroad and sold to the  
 American consumer. There never has been a  
 time when we were importing more foreign toys

## Education of American Workers

By FREDERIC J. HASCLIN

New York—How to become well educated  
 poor is a problem that has long puzzled  
 many hard-working Americans. Now, at last, a  
 satisfactory solution seems to have been found in  
 the workers' universities that are being estab-  
 lished in so many industrial cities throughout the  
 country.

Already more than 50 of these universities are  
 in operation, as well as innumerable study class-  
 es, where men and women may go in their spare  
 hours and receive an excellent education. They  
 are financed by the workers themselves. Some  
 of them, such as the Amherst Classes for Work-  
 ers and the Trade Union College of Boston, have  
 a close affiliation with our big universities. Hav-  
 ard, Boston Tech, Wellesley and Tufts, for ex-  
 ample, have all been interested and generous in  
 their support of the Boston workers' college,  
 while the Amherst classes were originated and  
 are taught by instructors from the Amherst Col-  
 lege faculty. All are under the general super-  
 vision of the Workers' Educational Bureau of Amer-  
 ica, whose headquarters is here in New York.

Although the Amherst experiment in workers'  
 education is not typical of most of the ventures,  
 the reason for its inception is.

"It seemed to us," says the secretary of the un-  
 dertaking, "that the relations surrounding Ameri-  
 can colleges and the communities surrounding them  
 varied from armed neutrality to actual hostility,  
 and that college graduates were unfortunately too  
 often ignorant of the conditions of the masses  
 (not only to anyone) were available to very few  
 whose family incomes were not above the aver-  
 age, and this was true largely because our edu-  
 cational system is founded upon a scheme of pre-  
 requisites making the graduation from grammar  
 and high school almost essential if one is to en-  
 ter college. So that, once having dropped out, it  
 is almost impossible to go on again. Even high  
 one is so exceptionally fortunate as to have this  
 funds and the leisure necessary."

The red blood of death covers the green of  
 Ireland today, more's the pity.

"Many of them were reeling drunk," said a  
 survivor of the horror at Herlin, speaking of the  
 mob. That is its own sermon.

The Chicago Tribune has a burning editorial  
 on "See America First." What really troubles  
 the Tribune is to see America third.

## JUST FOLKS

By EDGAR A. GUEST.

(Copyright, 1922, by Edgar A. Guest)  
**MANY HAPPY RETURNS OF THE DAY.**  
 Many happy returns of the day, Uncle Sam,  
 Many happy returns of the day!  
 Though I am one of your humblest of nephews,  
 I am

I've dropped in this morning to say  
 Many happy returns of the day, and to pray  
 That you will be here when the world has  
 grown gray.

This is your birthday, the gift-giving time,  
 When friendship and love have full sway,  
 And so I am wishing for you in this rhyme  
 I am

Many happy returns of the day.  
 God bless you and keep you, O Country of  
 mine,  
 God bless the blue field where your stars  
 brightly shine.

I would I might bring you rich treasures of  
 gold,  
 As my pledge of devotion to you,  
 But I bring you the wish you shall never grow  
 old.

God grant that my wish may come true,  
 And I greet you once more in the old-fash-  
 ioned way,  
 Uncle Sam, many happy returns of the day!

## ON THE SPUR OF THE MOMENT

By ROY K. MOULTON.

**"OUT TO LUNCH."**  
 If ever there is a famine in this country, it  
 will be the fault of the downtown business man.  
 The appetite of the average citizen of industry  
 is quite beyond conception.

One is not surprised by this fact until he  
 attempts to get an important business man on  
 the telephone, or perhaps to call upon him  
 almost any time between 10 a. m. and 5 p. m.  
 One is apt to have this food-depriving pro-  
 pensity call his attention if he is a person of  
 no particular diversion.

If he calls up Mr. L. Sprague Dingwizzle, president  
 of the Dingwizzle Mopless Dust Company at  
 10:45 a. m. he is informed that Mr. Ding-  
 wizzle is "out to lunch." In a similar way  
 one time. If he calls again at 2:15 p. m., he  
 is told that Mr. Dingwizzle is still "out to  
 lunch."

If Mr. Dingwizzle is not "out to lunch" he  
 is "in conference," which is just as bad. The  
 chances, however, are all in favor of the gas-  
 tronomic diversion.

An amateur expert who has spent several  
 years trying to see prominent business men, has  
 figured that the amount of lunch consumed  
 by downtown business men in a single day  
 would exactly fill the Woolworth building if  
 the latter were hollow. It would also tax the  
 capacity of our merchant marine at the present  
 time.

On top of these interesting figures, we have  
 the statement that the most prominent  
 business men satisfy themselves, for  
 lunch, with a glass of milk and a piece of apple  
 pie in their offices.

The question is just another of those things  
 which so divert our friend Mr. Cheserton—a  
 paradox.

One scientist says a man should choose a  
 wife by the size and shape of her feet. Then  
 the only ones who could get the right kind of  
 wives would be the carpenters and shoe clerks.

Hotel Men's Association of New York will  
 not make the waiters follow the Paris custom  
 and wear white coats, saying "It is easy to dis-  
 tinguish the waiters from the guests now."  
 Yes, you can always tell a waiter from a cus-  
 tomer. The waiter looks perfectly at home in  
 a dress suit.

Long Island hostess is giving what she calls  
 a "Garden of Eden party." She calls it that  
 because every woman who was invited said she  
 didn't have a thing to wear.

 How can the rest of them say they have a com-  
 plete modern education?

## Who's Who Today

**SIR CHARLES HIGHAM**  
 He's now Sir Charles Higham, M. P., highly  
 honored British knight. But he was not al-  
 ways that.

Time was when Higham  
 used to be regarded as the  
 start "soda-shooter" of  
 Newark, N. J., drug store.  
 That was in 1898, his name  
 but he still regards that title  
 as highly as he does his  
 present one.

Higham was born in Eng-  
 land and spent sixteen years  
 in the United States, coming  
 to this country when a child  
 with his parents, who now  
 live in Brooklyn.  
 After being graduated  
 from the Mount Union High-  
 school, he became a combination  
 reporter-artist for a New  
 York paper and claims the  
 distinction of being the first  
 man to prepare the news of  
 a boxing election fight.

Later he returned to England and at the out-  
 break of the war, believing himself to be an  
 American, tried to enlist in the American army.  
 He found he still was an Englishman, so he  
 went to the front as a soldier in the British army.  
 He was for his services as such that he was  
 knighted.

Higham has been in the United States attend-  
 ing the recent international advertising men's  
 meeting in Milwaukee and visiting relatives.

## LOOKING BACKWARD

**FORTY YEARS AGO**

July 3, 1882—The exhibition of fireworks  
 tonight will take place in the Court house  
 park and the balloon ascension from the Corn  
 Exchange. The celebration of the Fourth is  
 expected to be the greatest ever held here.  
 Chief Marshal Dr. J. E. Whitely and his as-  
 sistants prepared the events will be held in the  
 parade which will include all city and  
 fraternal organizations here.

**THIRTY YEARS AGO**

July 3, 1892—Changes have been made in  
 the Northwestern road which will benefit Janes-  
 ville. The depot which has been used for  
 some time, since the road was established,  
 is to be made considerably larger, and the su-  
 perintendent of the Wisconsin division will lo-  
 cate his offices here. The new superintendent  
 is Mr. Koulton.

**TWENTY YEARS AGO**

July 3, 1902—Impressive ceremonies were  
 held at St. Mary's church here this morning,  
 marking the first mass celebrated by Rev.  
 Charles Olson, recently ordained in Milwaukee.  
 He will soon enter active duties as the assistant  
 pastor of St. Joseph's, Milwaukee. The city  
 committee met yesterday to consider  
 office equipment for the new city hall.

**TEN YEARS AGO**

July 3, 1912—George Shurtleff came close  
 to death yesterday when he was dragged two  
 blocks by a horse. There will be a general ex-  
 ecution from the city tomorrow, there being no  
 executions here except at the county jail.  
 Many auto parties have been planned.—Miss  
 Harriet Grimm of this city is to make a tour  
 of the county for the Political Equality League.

**THE HABIT OF TAKING SALTS**

Firmly, but gently, let us insist that  
 the good old fashioned remedies  
 will hold their place in our practice  
 against all modern inventions, and  
 salts is one of the old reliable. Yet  
 reluctantly, but frankly, we must con-  
 fess that this salt is a powerful amount  
 of doing a powerful amount of  
 harm when abused. And it is abuse  
 to take salts when you merely require  
 a laxative.

Under certain circumstances nothing  
 can be substituted for salts. By  
 definite results are to be obtained. By  
 salts we mean Epsom, Rochelle, Glauber's,  
 Carlsbad phosphate of soda, cit-  
 rate of soda, in fact, any saline ca-  
 theartic, natural or artificial.  
 Each of these salts has its own charac-  
 teristic effect on the system. But each  
 of these salts will do much  
 harm if habitually or frequently  
 taken merely to move the bowel.

The action of salts, no matter which  
 saline is used, is to irritate. The  
 kind is very simple to explain. The  
 saline has an affinity for water and  
 draws water from the lining of the  
 bowel. This, of course, causes irrita-  
 tion, to which the bowel responds by  
 increased activity. Imagine the effect  
 of daily irritation of the kind over a  
 period of many months or years!

Some of the salts, no matter which  
 kind, will be absorbed into the blood  
 and eliminated through the kidneys.  
 In the process of elimination the kid-  
 ney is irritated, and if the dose is a  
 daily habit the kidney will in time  
 suffer. The abuse of salts is one of  
 the many causes of kidney disease in  
 later life.

One is apt to resort to a dose of  
 salts upon rare occasions, or several  
 doses if necessary. It is not abuse to  
 employ salts when your physician  
 prescribes such medicine for some  
 particular purpose, such as moving  
 the bowels. It is abuse to take salts  
 when a milder laxative will suffice,  
 and it is abuse to use salts merely for  
 the purpose of producing an evacua-  
 tion.

One of the least-unpalatable saline  
 laxatives and most effective when  
 properly prepared and taken is the  
 official solution of magnesium citrate  
 of the pharmacopoeia. This pleasant  
 solution may be freshly prepared by the  
 pharmacist on call, and the whole  
 story is told in the booklet.

**Q. In playing golf have I a right  
 to bend the grass when I find my ball  
 in the rough? M. W.**

A. You may bend or part the grass  
 only if it is necessary for you to do  
 so in order to identify your ball, and  
 then only sufficiently to enable you to  
 make the identification.

**Q. Of what denomination are the  
 people who give the London play at  
 the Metropolitan? J. J. K.**

A. The Bavarian villagers who give  
 this celebrated Passion Play are  
 Roman Catholics.

**Q. What percentage of the immi-  
 gration to Canada is from the United  
 States? G. K. N.**

A. Since the first of the year the  
 United States has furnished about  
 half of the newcomers in Canada. The  
 total is made up of 4,128 British, 8,019  
 Americans, and 4,227 from other coun-  
 tries.

**Q. Are trees more apt to be struck  
 by lightning when it is raining?**

A. During thunder showers trees  
 become drenched with rain. Accord-  
 ing to some authorities, the more  
 thoroughly wet the tree is, the less  
 susceptible it becomes to lightning  
 stroke.

**Q. What metal is absolutely non-  
 porous that can be used for cooking  
 utensils? P. L.**

A. The Bureau of standards says  
 the metal is absolutely non-por-  
 ous. Such ones as aluminum, tin and  
 iron are sufficiently non-porous
